The afternoon recession in stocks, under the lead of U. S. Steel, was of same character as that of yesterday and was due to professional selling. The usual rumors circulated that negotiations for the settlement of the strike had broken off, and in the absence of official contradiction many traders appear to believe them.

STEEL STOCKS SUFFER BECAUSE OF STRIKE.

ABSENCE OF SETTLEMENT IS DRIVING DOWN PRICES.

Chicago Operators and Eastern Traders at Variance Regarding the Damage to Crops.

REPUBLIC SPECIAL

New York, Aug. 1.-After a somewhat irregular opening, American stocks in the London market developed fair strength and closed firm near the best of the day. The general market was steady, and console stained their recent advance. The Bank of England rate remained unchanged, and return was not quite so good as last week, showing a considerable reduction in the proportion of reserve to liabilities. The bank lost a good deal of bullion on the bank lost a good deal of bullion on the week. Rates of exchange in European centers were harder. There was noticeable strength in French rentes in Paris. In the local market the strength in the soft and hard coal stocks was a feature of the early trading. The steel stocks recovered substantially from the opening, but reacted later on the absence of any confirmation of the reported actiement of the

ered substantially from the opening, but reacted later on the absence of any confirmation of the reported settlement of the strike. The strength in the soft coalers was in sympathy with the advance in Norfolk, where there was evidence of strong pool buying. The granger stocks showed some little strength in a rather narrow market, and gained ground in the absence of pressure from Chicago, Sugar soid off somewhat on the fresh competition announced this morning. Traction stocks were neglected, and in spite of the activity in the coalers, the market was exceedingly professional, and the movements attracted only a very limited public following. Pennsylvania sympathized to some stient in the advance in its controlled stocks, and there was very fair investment buying of New York Central.

Expecting Bad Crop Report.

Chicago operators seem to be banking on a bad Government report, but a very respectable section of the street believes that the crop damage any way has been discounted by the recent decline. Money has been a shade harder, as it usuning is at the beginning of a month, but the movement has no other significance. Exchange on London is harder, and a further small advance would make gold shipments feasible. Wheat crop reports, so far are excellent, and have some effect in giving strength to the grangers, particularity as the weather in the Northwest is excellent for harvest operations.

The sharp decline in the steel stocks on pressure from Chicago and report that the men had repudiated Saturday's compromise gave a rather heavy tone to the close, although the railroad stocks were by no means weak. Chicago was the heaviest sensor would the railroad stocks were by no means weak. Chicago was the heaviest sensor would not trading was comparatively small, although better than on Wednesday, but represented a very small proportion of legitimate commission business.

Brokers frequently employed by the Pennsylvania Railroad interests lid up N. & W. and C. & O. and took the largest lots. Pennsylvania improved in sympathy. LOCAL MONEY MARKET.

A Good Start for the New Month-Baniness Reported Active.

The month of August in a financial way started off yesterday in a manuer to greatly encourage those interested, who are satisfied that it will be even better than the month jour passed. All the banks and thus companier of the city were being very heavy in all discount of the city were being very heavy in all discounting the properties. In a routine way great activity was shown, the checking and depealing being brish and business with country banks encouragingly large. There was a rood demand for money, between of heavy all classes being represented at the loan counters of the various institutions, but as there was an abundance of money on hand their wants were early satisfied. Interest rates were inchanged and steady at 5 to 7 ter cent in the extreme for call and time loans, the bulk of the discounting being at 5 to 7 ter cent in the extreme for call and time loans, the bulk of the discounting being at 5 to 7 ter cent in the extreme for call and time loans the bulk of the discounting being at 5 to 7 ter cent. The first day's bank clearings for the new month were encouraging, they amounting to 55.

**VERY GOOD TRADING** ON THE LOCAL BOURSE.

NTEREST CENTERS IN BANK AND TRUST STOCKS.

Market Quiet and Featureless Oth erwise-Railways Again Neglected, but Steady.

A very good business was transacted on the local bourse yesterday, the sales, which were well distributed, footing up over 577 shares of stock, and one bond. Although this was the case, the market was not particularly active, and was devoid of special features. Like the day before, inerest was chiefly centered in bank and trust stocks, and the trading was largely confined to that class of securities to the neglect of others. It was a particularly poor day for United Railways, which, poor day for United Railways, which, while unchanged as regards price, were extremely dull, they attracting even less attention than the day before. Nothing was done in the bonds or Transit stock, and the demand for the preferred was only sufficient to bring about the sales of 100 shares, all of which brought \$8.50. The market closed practically the same as the previous

Third National Bank and Lincoln Trust stocks were prime favorities with brokers. They were well supplied with orders to buy and sell and many of these were executed and sell and many of these were executed and sales were fairly large. The market was a strong one, and this strength was maintained throughout the session, top prices being bid at the close. Third National was the first to engage the attention of brokers, and was traded in to the extent of 10s shares at 1221, 222,075 and 2229,50, an advance for the day of \$\frac{1}{2}\$ to 1 point, as compared with the day before. Old and new Lincoln was in demand, but it was only the cid that was traded in, 125 shares selling at \$\frac{1}{2}\$ to \$\frac{1}{2}\$ points higher at \$235 and \$235,25. At close \$235 was bid and \$235,25 asked. The market for new stock during the session and at the close was \$25.50 buyers and none offered.

The market for other bank and trust stocks, besides those mentioned above, was comparatively quiet and but slight changes in price were to be noticed. Sales were also small. 59 shares old Mercantile selling at \$234, but the market closed \(^1\_2\) point lower for the day at that sellers, and \$23.50 bid. St. Louis Trust was \(^1\_2\) point lower at \$31.50 bid. Title and Guaranty was salable at \$152, and Commonwealth and Missouri at \$22.50 and \$102 respectively. Bank stocks to attract attention were National Bank of Commerce, 14 shares of which sold at \$29.50 and Continental National, 20 shares selling at \$23.50.

Granite-Bi-Metallic was in demand in a quiet way at the same price it closed at the day before, and 50 shares sold at \$1.55. The close was at \$1.50 bid and \$1.51\_asked. During the session a sale was made in one Wissouri, Edison 5 at \$25.

The Board of Health again met behind

closed doors yesterday afternoon. Investigation into the cases of Henry Krop, cleriand Fred Ziegenhein, storekeeper, both em ployes at the Poorhouse, was concluded. After the meeting Health Commissioner Starkloff said the board had decided to give the employes a severe reprimand, but no the employes a severe reprimand, but not to asscharge them. Sunperintendent Rem-mers was not sustained by the board. After the former meeting Secretary Kauff-mann said the board had concluded to hear further evidence to be submitted by the Superintendent before rendering a verdict The next day one of the scratch tablets use In the office revealed words indicating that the termination of the cases would be a reprimand. The tablet, with the sentence upon it, was still on the table Wednesday. Superintendent Remmers desired to eaging other employes for the positions, because a large quantity of potatees, in charge of Krop and Ziegenhein, had rotted, and the institution was without potatoes for several days. The employes appealed to Health Commissioner Starkloff and the board held two secret sessions. Doctor Starkloff said tyesterday the potatoes had rotted, "but," he added, "there were extenuating circumstances. Ziegenhein was away on leave of absence, and he could not be blamed." The two employes were excenerated by the board, but will be reprimanded. in the office revealed words indicating that
